How to set a Carrier to NCPDP D.0:

- Set the CAM Billing Parameters Format to "NCPDP – D.0"
- Set Claim Type Overrides Format to "NCPDP – D.0"
- Set CAM Templates for Carrier to "NCPDP D.0" (This option is now available on the Pharmserv Utilities Menu.)

HIPAA X12 5010 Compliance:

- **835** – Health Care Claim Payment/Advice. Pharmserv Chain Host reconciliation is the only application affected by this change and minor changes to accommodate this are included in our next release, 6.2.1 and will be available prior to the 1/1/2012 due date.

Express Scripts Compound Rx Processing Note:

Pharmacies are required to sign an Express Scripts Compound Claims Contract Exhibit in order to process compound claims starting 1/1/2012. This must be on file at Express Scripts by 12/23/2011 or all compound claims will be rejected.
